

DEPARTMENT OF ZOOLOGY

DISTRIBUTION OF VERMICOMPOST

The distribution of vermicompost prepared by the Department of Zoology in its own composting units in the college campus, was inaugurated by Dr. R. Bindhu, Hon'ble Minister of Higher Education, Govt. of Kerala by giving away a packet of vermicompost to Sri. P Prasad, Hon'ble Minister of Agriculture, Govt. of Kerala on 22.08.2024. The vermicomposting unit is functioning in the department since 2016. Its major advantage is the disposal of a part of organic wastes produced in the college premises. The compost is used by the department for manuring the garden and the small returns gain by the vermicompost sale contribute to the running cost of the unit. Both the ministers were appreciated the effort by the department in producing such a model for waste disposal. The staff and students of the department receive supports from the college management for its maintenance. The college Manager Rev. Fr (Dr) Celestine Puthenpurakal, Principal Prof. (Dr) Sindhu S Nair, Vice Principal Dr Antony Kuriakose and Zoology department Head Dr. Antony P J were present during the inaugural function held in the college auditorium.
