

Action Taken Report 2019-2020

Based on the feedback analysis, authorities of the college have initiated remedial measures on the issues noticed. The measures adopted in this regard are as follows;

- **Strengthening alumni-college relationship:** Efforts have been made to foster improved connections with the alumni. Invitations were extended to alumni for various events organized by the institution. Additionally, through the proactive efforts of the registered alumni, class-wise alumni meetings have been organized, contributing to the enhancement of the relationship between the alumni and the institution.
- **Infrastructure development:** A committee was established to evaluate deficiencies in the current infrastructure, and significant infrastructural issues were communicated to the Management for corrective measures. The Internal Quality Assurance Cell (IQAC) is actively involved in recognizing improvements for infrastructure enhancement. The IQAC emphasized the importance of renovating the existing science laboratory to facilitate more effective practical-oriented classes.
- **Increased focus on Extracurricular activities:** Efforts are made to motivate students to engage in different cultural festivals and orientation programs conducted by various institutions throughout Kerala.
- **Improvement in Research Facility:** It is recommended to enhance the infrastructure facilities to support research endeavors. Additionally, increasing the seed money allocated as funds for research is suggested. Students will be actively encouraged to participate in research activities and contribute articles to reputable journals.

Prof. Riju Gregory
IQAC Coordinator

Dr. Mathew V.
Principal
